

Sherwin Anthony R. Rabe

Calamba, Laguna | 09648162673 | rabeshewin419@gmail.com

PROFESSIONAL SUMMARY

Graduating Bachelor of Science in Computer Science student with hands-on experience in full-stack web development using, PHP, Laravel, React TypeScript, PostgreSQL, MySQL, and REST API integration through academic, personal, and internship projects. Contributed to the development and enhancement of internal business and franchise analytics systems, including UI improvements, database integration, and reporting functionalities using MVC architecture and OOP principles. Adaptable and detail-oriented with strong problem-solving skills, basic AI integration knowledge, and the ability to quickly learn and collaborate in team environments.

EXPERIENCE

LYB IT Solutions Company — IT Intern

January 2026 - March 2026

- Developed and implemented an additional module enhancement for the company's internal software system based on operational requirements, including UI design and functionality improvements:
 - Assisted in developing and improving a web-based system using technologies such as HTML, CSS, PHP, React with TypeScript, Laravel, Supabase, APIs, and Groq AI.
 - Applied MVC architecture and Object-Oriented Programming (OOP) principles to ensure the system structure was organized, scalable, and maintainable.
 - Managed database operations using Supabase by creating tables, handling data, and performing CRUD operations to ensure accurate data flow.
- Gained hands-on experience in real-world system development and improved technical, analytical, and problem-solving skills throughout the internship.

PROJECTS

Franchise Analytics Monitoring System (Internship Project)

- Applied MVC architecture and Object-Oriented Programming (OOP) principles for maintainable and scalable system development.
- Enhanced an existing analytics system by developing a new module to improve usability and reporting
- Implemented business calculations using sales, expenses, and COGS data
- Integrated ClickHouse database and optimized queries by retrieving only required aggregated data
- Developed basic AI-driven insights and recommendations for franchising analytics
- Worked with real company data and real-world business requirements

SKILLS:

Technical:

- **Programming Languages:** Java, Kotlin, XML, C#, SQL, PHP, HTML, CSS
- **Web Development:** Laravel Framework, REST API Integration, React typescript
- **Databases:** PostgreSQL, MySQL
- **Data Format & APIs:** JSON data handling, parsing, and structured data integration in REST APIs
- **Version Control:** Git, GitHub (push, pull, merge, branch management)

Soft Skills:

- Communication skills
- Time management
- Teamwork / Collaboration
- Adaptability
- Problem-solving

EDUCATION:

STI College – Calamba

2022-2026

Bachelor of Science in Computer Science
